The Dhammapada

PREFATORY NOTE

FAUSBOLL'S *editio princeps* of 1885 and his second edition being both exhausted, the time seemed fully ripe for the Pali Text Society to fill this notable gap in its Suttanta issues and to publish an edition of its own. We were fortunate to secure for this work a well known Pali-ist of Ceylon, who combines with erudition a familiarity with every word of the venerable stanzas.

The parallel passages at the foot of each page were for the most part collected by Professor Rhys Davids on the interleaved pages of his copy. But it is not claimed that they are exhaustive.

The figures appended to the 'vatthu' or story leading up to each verse or group of verses refer to volume and page of Norman's edition of the Commentary.

For kind permission to reprint the Gatha Index from their Journal, our thanks are due to the Council of the Royal Asiatic Society.

C. A. F. RHYS DAVIDS

FOREWORD

The Dhammapada is one of the fifteen books that constitute the Khuddakanikaya, and it is indispensable to the students of Pali literature and Buddhism Hence it is very generally used by them with a view to gain a knowledge of the sublime teachings of the Buddha

The students who could prove their thorough understanding of the Dhammapada and its Commentary were, in the time of the Mahavihāra fraternity, entitled to the popular degree called "Khuddakabhanakā" Hence, it is no wonder that even now, after the lapse of centuries, this book is highly venerated and esteemed in Ceylon as a text book to be used for novices They must satisfy the elders by their proficiency in it before gaining the higher ordination, or *upasampada* As a result of this laudable custom there is in Ceylon no fully ordained bhikkhu who cannot recite the Dhammapada by heart from beginning to end Moreover, its stanzas are very often quoted by Buddhist preachers as texts on which their sermons are based

The Dhammapada was published for the first time in 1855, in Roman characters with linguistic explanations and notes, and a literal translation in Latin by the eminent Oriental scholar, V Fausboll, and afforded immense help to beginners in the study of Pali and Buddhist literature A second edition by the same scholar was published in 1900

I undertook with great pleasure, at the kind request of the President of the Pali Text Society, the task of editing the present edition of the Dhammapada I have also contributed a new index This is, of course, in Roman characters

also I hope, however, that it may prove of some use to the Asiatic students of Buddhism and Pali literature.

I have collated my manuscript with Sinhalese, Siamese, and Burmese editions, as well as with the second Fausboll edition, and also with two reliable manuscripts in my possession. Reference to these is indicated by the following abbreviations:

Br. = Burmese printed edition, Hanthawaddy Press Rangoon.

Sc. = Sinhalese printed edition, Granthaprakasa Press Colombo.

Sd = Devamitta's Sinhalese edition

K. = the Siamese printed edition.

F = Fausboll's second edition.

C" refers to readings adopted by the late H. C. Normar in his edition of the Commentary, published by the Pal Text Society

In some instances I have also consulted the ancient Sinhalese glossary to the Dhammapada Commentary, which was written by Aba Salamevan Kasup V. (Abhaya Silāmeghavanna Kassapa), King of Ceylon, who flourished A D 929-939 This book is held in high esteem in Ceylon as a classical work

In conclusion, I take this opportunity of expressing my deep indebtedness to my beloved preceptor, the Venerable M Siri Ñanissara, High Priest and Principal of the Vidyodaya Oriental College, for his invaluable advice and suggestions
